(301) 694-8122

Dear Sir or Madam:

I am pleased to voice my strongest support for the establishment of a student chapter of the Society for Applied Spectroscopy at the Columbia campus of the University of South Carolina (USC). I have been a member of SAS for a long time and have contributed to the former FACSS and current SCIX meetings over the years. We have a large number of graduate students doing research with spectroscopy at USC, and I believe such a USC chapter will be sustainable.

The organization of this effort has been entirely done by the graduate students in analytical chemistry at USC and I am honored to have been asked by to serve as the new Chapter's faculty advisor. If I can provide further information, please contact me at (803) 603-3961, by email at morgansl@maibox.sc.edu, or at the following mailing address:

Dr. Stephen L. Morgan, Professor
Department of Chemistry and Biochemistry
University of South Carolina
631 Sumter Street
Columbia, SC 29208

Thank you for your support of student SAS chapters.

Sincerely,

Stephen L. Morgan
Professor
